

ABOUT DAVE CADDEY

David N. Caddey was a Canadian space industry leader and visionary. For nearly thirty years, he worked at MacDonald, Dettwiler and Associates (MDA), serving as President of MDA's Space Missions division and as Executive Vice President. During this time, he oversaw several of their major programs and lent his management and leadership skills to some of Canada's most advanced space programs, including the construction of the RADARSAT-2 spacecraft and its associated ground infrastructure as well as the construction of the International Space Station Mobile Servicing System.

Mr. Caddey began his career in the military, spending 19 years holding various technical and engineering positions in the Canadian Air Force before joining MDA in 1986.

A dedicated advocate for Canada's space industry, he served as both Director and President of the H.R. MacMillan Space Centre in Vancouver, and on the Board of Directors of the US Space Foundation. He also had a long history of leadership at AIAC, including roles as Chair, a member of the board of Directors, and Chair of the AIAC Space Committee. He also played a leading role in developing the space industry's contributions to the 2012 Emerson Review on Aerospace and Space.

Mr. Caddey held a Master of Science and Bachelor of Science from Royal Military College in 1976 and 1971, respectively. In 2014, Mr. Dave Caddey was awarded the James C. Floyd Award by AIAC for his exceptional contribution to the development of Canada's space industry. He passed away in September 2015.

THE DAVE CADDEY
MEMORIAL SCHOLARSHIP

SUPPORTING THE INDUSTRY OF THE FUTURE!

The Aerospace Industries Association of Canada (AIAC) is proud to present the *Dave Caddey Memorial Scholarship*, supporting students in their choice of a career in aerospace, space and defence sectors.

AIAC is committed to ensuring the long-term success of aerospace in Canada. In establishing this scholarship, AIAC will help Canadian aerospace companies of all sizes to have the resources they need to grow and enhance their competitiveness.

THE 2017 SCHOLARSHIP WINNER WILL RECEIVE:

- **Financial assistance** for their post-secondary education
- **Hotel and travel expenses to travel to Ottawa** to attend Summit 2017 — Canada's PREMIERE aerospace & space conference
- The opportunity to **network and engage with the brightest professionals in the Canadian aerospace and space industries** at Summit 2017

FAQ

How are the applications processed?

- Applications will be reviewed by a panel of industry experts
- Every effort will be made to engage a cross-section of Canadian industry professionals who possess a range of experience in the review process

When will applicants know if their submission has been successful?

- The review process typically takes about four to six weeks
- A decision will be made on or around the week of August 15, 2017

What does the selection process involve?

- Applicants' submissions will be evaluated on the criteria outlined in the "What do applicants need in order to apply?" section
- Applicants must demonstrate an interest in pursuing a career in aerospace, space, or defence, as well as explain how they want to make an impact on the industry

SCHOLARSHIP APPLICATION PROCESS

Who is eligible to apply?

To be considered for the scholarship applicants must meet the following criteria:

- Enrolled full-time or part-time at a Canadian college or university
- Pursuing an aerospace/space, engineering or business/marketing-related program
- Have current or past experience working part-time or full-time within the aerospace/space industry

What do applicants need in order to apply?

1. Complete an application profile available online at www.aiac.ca/scholarship
2. Official transcript from either high school or post-secondary institution from the last two semesters
3. A one-page reference letter from a current or former professor/employer that includes the following:
 - Applicant's demonstrated and continued commitment to the aerospace, space or defence industries
 - Ways in which the applicant has distinguished him/herself from other employees
 - Reasons indicating why the applicant is deserving of this scholarship
 - Current employer/supervisor contact information
4. A typed essay (500-700 words) that answers the following: *What or who inspired you to focus on aerospace or space as a career?*
5. Proof of applicant's enrollment in a Canadian post-secondary institution. One of the following will suffice:
 - Letter of acceptance or conditional letter of acceptance
 - Proof of tuition payment
 - Letter from Office of Registrar

Please note: This scholarship program is for students who are enrolled in or applying to specific aerospace or space business, engineering or marketing post-secondary programs in September 2017. **If you are not in one of these programs or attending school in Fall 2017, your application will NOT be considered.**

DEADLINE TO APPLY IS AUGUST 1ST, 2017.
