

Bio – Chris Lohmann, Boeing

Chris Lohmann leads innovation and market development for aerospace energy systems and sustainability in Canada and Europe for Boeing. Over a twenty-year career he has worked on energy transition challenges in renewable fuels, waste-to-energy, energy storage, EV infrastructure, and microgrids. Prior to Boeing, he led the performance warranty group at Energi Insurance, underwriting and insuring the technical and engineering risk of emerging energy technologies to support project financing. At the U.S. Department of Energy he served as a Senior Finance Policy Advisor, addressing the hurdles faced by technologies bridging the gap between government R&D funding and private capital. He began his career in the US Marine Corps as an F/A-18D Weapons and Sensors Officer. He holds an MBA from the University of Southern California and a BA from Yale University, and attended high school at Lisgar Collegiate in Ottawa.
