

Matthew Bromberg is CAE's President and Chief Executive Officer. He is a proven leader with deep experience in both aerospace and defence, involving large-scale international operations, and brings decades of leadership at major global public companies, with a strong track record in driving operational excellence, transformation, and growth.

Prior to joining CAE, Mr. Bromberg was Corporate Vice President of Global Operations at Northrop Grumman, where he spearheaded substantial enterprise cost efficiencies by driving program excellence, streamlining operations, and leading a major supply chain transformation. He led the corporate Operations Council and was a member of the company's executive leadership team.

Previously, Mr. Bromberg served as President of Military Engines at Pratt & Whitney, a division of Raytheon Technologies. Over his 20-year career at Raytheon, he held senior leadership positions in general management, corporate strategy, and business development. Notably, he led Pratt & Whitney Commercial Aftermarket Operations and served as Vice President of United Technologies Corporate Strategy & Development.

Earlier in his career, Mr. Bromberg worked as an investment banker with Goldman Sachs and then led several key acquisitions and divestitures at United Technologies, developing an extensive M&A background. A proud military veteran, he served as a submarine officer in the U.S. Navy.

Mr. Bromberg holds a bachelor's degree in physics from the University of California, Berkeley, as well as a Master of Business Administration and a Master of Mechanical Engineering from the Massachusetts Institute of Technology.

He serves on the Board of Governors of the United Services Organization and on the Board of the Massachusetts Institute of Technology Leaders for Global Operations program
