

## **Philippe Poutissou**

Vice-President, Strategic Partnerships, De Havilland Defence

Philippe leads a portfolio of emerging business opportunities and strategic partnerships supporting the growth of the De Havilland Defence program in alignment with the objectives of the Government of Canada's Defence Industrial Strategy.

With 30 years of experience in the Canadian Aerospace industry, Philippe has broad professional expertise that supports DHC's vision to keep the existing fleet flying and to develop versatile dual-use aerospace solutions for commercial and defence applications. His deep specialization in turboprop aircraft markets and operations supports the continued advancement of De Havilland Canada's portfolio of aircraft programs.

Philippe has previously served as De Havilland Canada's Vice President, Sales and Marketing, and Vice President, Asset Management. His earlier career experience includes leadership roles in aircraft leasing, engineering, strategy, and marketing, and he has contributed to the successful launch of several new aircraft programs. Prior to joining DHC, he was Vice President of Marketing, Commercial Aircraft at Bombardier from 2008 to 2014.

Philippe earned a Bachelor of Science (Honours) in Engineering Physics from Queen's University and a Master of Science in Aeronautics and Astronautics from the University of Washington. He lives in Toronto and regularly supports De Havilland's activities in Alberta, BC and overseas.
